

## EXPEDITION TO SEARCH ASIA FOR 'MISSING LINK'

(By Associated Press)  
NEW YORK, Feb. 23.—A group of scientists left here today on a mission that will keep them in the vast untrodden areas of Asia for five years.

When they return to America they hope to have evidence that the "missing link" between man and beast actually existed. Also they expect to bring back thousands of animal and botanical specimens to fill the proposed Hall of Asiatic Life in New York.

Roy Chapman Andrews, leader of two former scientific parties into China, will head the new groups, to be known as the third Asiatic expedition of the American Museum of Natural History. Supporting it financially are more than a score of New York's wealthiest men and women, the museum and other organizations. The party will sail from San Francisco on March 19.

Joined in Asia by scores of native guides, hunters, cooks and helpers, the scientists expect to introduce American automobiles, moving picture cameras and other modern machines on the Gobi desert, central Asian plateaus, Tibetan steppes and other little known lands.

Gasoline trucks will constitute mobile bases for various branches of the expedition—paleontologists, archaeologists and anthropologists—while speedier cars are used in explorations and hunting. Dr. Andrews found a 50-mile-an-hour car too slow to keep up with frightened antelope in central Asia, and is taking a speedier racer to use in hunting these mile-a-minute runners.

The first base of the party will be established in Mongolia, where the scientists expect to remain 24 months before penetrating western China. After the vanguard has spent a year in Mongolia, a second group of scientists will leave New York to join them.

Northeastern and central Asia will be thoroughly gone over in a study of the origin and migration of man, to prove or disprove the popular scientific theory that Asia was the center of dispersal of the human race as well as for many of the mammals, the descendants of which now are scattered over the earth.

Doctor Garnot, a strong admirer of American men, suggests California husbands for French girls. He estimates that, due mainly to the war, there are 2,000,000 more women in France than men. California, he understands, has an excess male population.

## MOON AND TIDE DETERMINE DATE

(By Associated Press)

PLYMOUTH, Mass., Feb. 23.—Moon and tide have dictated the dates for the pageant to be presented next summer in celebration of the tercentenary of the landing of the Pilgrims.

As the scenes are to set on the shallow shore where the forefathers first trod, presentation of the piece will be subject to turns of the tide. To obtain the best artistic effects it has been decided to hold the events at night, making the moon a factor in the program plans. As a result the almanac was consulted for the most advantageous dates for the most advantageous dates for the Pilgrim tercentenary commission, now announces that the spectacle can be best shown on four consecutive evenings in the middle of July, the first of August and in the middle of August. At those times only, it was found, did the moon, and the tide which it controls, promise to combine the elements considered essential to the most effective presentation of the pageant.

The pageant is planned as the central feature of the celebration here. It is to be divided into seven separate episodes, portraying the lives of the fathers in many separate scenes.

The performances are to be given in the immediate vicinity of Plymouth Rock and that historic boulder may appear as one of the stage properties. The waters of the bay on which the Mayflower sailed from the Cape Cod anchorage where the famous compact was signed, to the spot where the landing was made will serve as a background, and Cole's hill, where many of the Pilgrims lived, died and were buried, with the waterfront, will form a natural amphitheatre.

Performers who will number 1000 or more, probably will include some of the few descendants of the Pilgrims who live near the scene of their settlement.

### CRAVATH IS NEW SALT LAKE BOSS

(By Associated Press)

SALT LAKE CITY, Utah, Feb. 23.—"Gavvy" Cravath, new leader of the Salt Lake club of the Pacific Coast Baseball league, has a hard task on his hands whipping together a winning nine from the remnants of last year's heavy hitting machine. Places of five of the club's mainstays have to be filled before the Bees open their schedule.

Several good players have been promised Salt Lake by the Chicago White Sox for three Bees stars, Earl Sheely, Ernie Johnson and Eddie Mulligan. The two other men lost to the club are Bill Rumber and Earl Maggett, dropped when charges were made concerning their activities.

Ted Jourdan will replace Sheely at first base and Paddy Elgin will be at second. A pair of infielders is needed to handle short and second. In the field, Cravath plans to take the place of Rumber in right.
